- Oblique Projection: Used for quick representation, where one face is parallel to the plane of projection.

- Perspective Projection: Mimics human eye perception, with vanishing points for depth.

2. Drawing Conventions and Standards

- Line Types:
 - Visible lines: Continuous, thick lines.
 - Hidden lines: Dashed lines indicating features not visible in a view.
 - Center lines: Long and short dash lines indicating axes of symmetry.
- Dimensioning Standards:
 - Clear placement of dimensions.
 - Use of arrowheads, extension lines, and leader lines.
