Typical Structure and Pattern of the EEE Aptitude Test

Understanding the pattern helps candidates strategize their preparation effectively. While the specific format may vary across exams, a typical EEE aptitude test includes the following sections:

1. Objective Type Questions

Most questions are multiple-choice, with four options, where only one is correct.

2. Sections and Distribution

The test usually comprises 4-5 sections, each focusing on different skill sets:

- Electrical Engineering Fundamentals (30-40%)
- Electrical Machines and Power Systems (20-25%)
- Electronics and Digital Electronics (15-20%)
- Mathematics and Logical Reasoning (15-20%)
- General Awareness/Engineering Aptitude (5-10%)

Note: The exact number of questions ranges from 60 to 100, with a typical duration of 90-120 minutes.

3. Question Types and Marking Scheme

- Correct answers fetch 1 mark each.
- Some exams impose negative marking (usually 0.25 or 0.33 marks deducted per wrong answer).
- Unattempted questions carry no marks.

Sample Distribution for a 100-question paper:

- Electrical Engineering: 40 questions
