```

```
G81 X10 Y10 Z-5 R2 F50 ; Drills hole at (10,10) with depth -5, retract 2mm, feed rate 50
```

```
```
```

Similarly, cycle calls can be customized for complex patterns.

## Macro Programming and Custom Routines

Advanced users can create macros for specific tasks, reducing programming time and increasing consistency. These routines can include conditional statements, loops, and parameter calculations.

## Optimizing Tool Path and Sequence
